This Teacher Resource is brought to you for free and open access by the Bioinformatics at DigitalCommons@IMSA. It has been accepted for inclusion in Research Project by an authorized administrator of DigitalCommons@IMSA. For more information, please contact pgarrett@imsa.edu, jean@imsa.edu.

Part 1: Research Question & Background

1. What is your choice of protein/gene/topic?
2. What questions do you hope to answer with your research? What is your goal with this?
3. What analyses do you plan to focus on?
4. Find at least 8 sources (at least 1/2 of which are peer reviewed) that will help you with context or background information.
5. Write 1-2 pages summarizing what you've learned from your sources.
