

# 12

# SLX Prep!

## Introduction

This module allows students to present their data journalism projects to facilitators in other classrooms, allowing students to receive feedback and advice before their experience with SLX.

## Objectives

1. Students will be able to practice public speaking skills by presenting their projects to different facilitators.
2. Students will receive feedback from other facilitators and students, learning more about how their projects could be improved.

## Agenda

1. SLX Presentations!

## Activities

### SLX Presentations!

#### **Purpose:**

To provide the students with a chance to practice their presentation skills and prepare for their presentation with a new set of facilitators.

#### **Directions**

- Have the students meet in a different classroom than normally.
  - Classrooms can be split up in any way, but the students have to be with their group members.
- Have each group present to the entire class.
- During the presentation, the facilitators should take detailed notes including proactive changes that should be made.
- As any presentation, display and announce the recommended changes and advice after the presentation.
