

# OPT DR - OPORTUNIDADES PARA TODOS

## ABOUT US

**OPT DR is a networking based app for college and highschool students in the Dominican Republic that helps connect students with scholarship and job opportunities around the country. Businesses will be able to advertise through us and reach a new target audience and therefore expand their respective businesses and hire more people.**

## How We Do This

**Students can download the app for a small fee, and search for opportunities matching their qualifications. They submit a resume designed through an intuitive form we provide. We do a follow up to make sure the resume is truthful. Then, the companies they are applying to get the resume and begin the hiring process. We funnel in vacant jobs, Users pick what they want to apply for, and finally we give their resumes to the employers. It is that simple!**

## PARTNERS

- **Unibe ( Universidad iberoamericana )**
