

SPEECH-LANGUAGE PATHOLOGY PROGRAM

BLABL

"Every Child Deserves to speak their mind"

WHAT IS IT?

Speech-Language Pathology Program

Blabl is a Speech-Language Pathology Program. Its goal is to help Speech-Language Pathologists do their job better through an app on a patients phone.

HOW MUCH IS IT?

Not-for-Profit

Blabl is an not-for-profit and as of now the app is free to download however it is intended to be monetized later on.

HOW IS IT DIFFRENT?

Around the world

Because of how Blabl's software is set up it could be used all around the world. The software helps SPL's so any SPL working remotely can use the app.

WHAT DOES IT DO?

Helps Speech-Language Pathologists

Blabl is able to diagnose a child's specific speech disability through an app. Then it will give specific activities tailored to that child to help their condition.

IS IT RELIABLE?

The more the merrier

Since Blabl does most of its work through an Ai it is important for it to be reliable. The more people to use the app the more reliable the Ai will become.
