

How the Cookie Crumbles

Directions:

Materials: Cookie Game Board, *Tweening Card Deck*, *Adulthood Card Deck*, two sets of wax string, each set a different color, scissors, pencil.

Place the **Cookie Game Board** on the table – pictures facing up. Choose a set of wax strings to go with each card deck. Use only one color of string for each deck. Record below:

Card Deck	Color of String
<i>Tweening</i>	
<i>Adulthood</i>	

Round One:

1. Shuffle the *Tweening Card Deck*.
2. Take the top card from the deck and read the event on the card selected. Determine the emotions associated with the event.
3. On the Game Board, connect an emotion on the card with the cookie in the center using two wax string pieces placed side by side (so that the connection is the width of 2 strings). You may need to cut the length of these strings to fit the connection on the board. Push down on the wax string so that it remains in place on the board.
4. If there is more than one emotion on the card, decide on how you will create the connections (ex: connect the second emotion to the first, or to the central cookie, or do both ways), and then make those connections as in Step 3.
5. Repeat steps 2-4 until a total of **10 cards** have been played.
6. If there are any connections that contain only two strings (one connection), remove these from the board.

Round Two:

1. Keep the string connectors from the prior round on the board.
2. Put away the *Tweening Card Deck* – you have grown up and entered adulthood.
3. Shuffle the *Adulthood Card Deck*.
4. Conduct the game as before in Round One (Steps 2-4) for a total of 10 rounds. ***This time – each connection requires only one string.***
5. **Remember to use a different color string to represent this round (refer to the table above)**
6. If there are any connections that contain only one string (one connection), remove these from the board.
