

“Is There an App for That?” Apps

 Remind	A cool teacher app, lets you send reminders to your class via email or text. No replies allowed to texts.
 Haiku Deck	Make web based presentations. Simple, easy too use and the presentations are not cluttered with all of the special effects.
 Quizlet	Provides practice and quizzes on all kinds of subjects, from social studies, to science to movies.
 I-nigma	A handy, little QR code reader. Sends to the site of the code.
 Dictionary	A decent dictionary also flashes to a thesaurus.
 Kahn Academy	Kahn Academy’s app. Lots of different topic videos, but I have been told not too good with organic chem.
 Edmodo	Safe social networking for schools and classes.
 Color Effects	Start with a photo and change the colors! “Gray” effect removes all color.
 The 24 Game	Provides 2 minute playing time for the “24” game. No dots, easy and hard sets are intermingled.
 Aeroweather Lt	Name an airport and get its weather. Also provides forecasts. Shows how pilots see weather reports.
 Caliper	Have you ever needed a caliper? This on measures in both English and metric units.
 Molecules	The app models a wide variety of molecules. A database is provided allowing search for examples.
 Sector 33	You become an air traffic controller in Sector 33, near San Francisco. Guide planes into “Frisco” safely.
 Google Maps	Well, it is Google Maps
 Google Earth	Of course.

 Smart Tools	This app provides several useful tools: a ruler, a compass, a protractor and a cool magnifier.
 Things to Think About	This app provides writing and thinking prompts.
 Coin Toss	Randomly tosses a penny, nickel, dime or quarter. Great for those probability activities.
 Dice	Rolls one to six dice. There are ads, but many free apps have to make money somehow.
 Mindgames	Free games to improve memory, speed, vocabulary and a number of other topics.
 SkyGrid	SkyGrid, the “Current Events” app for today’s schools. Stories from sports, news entertainment and so on.
 Decibel	This app provides a meter that shows the decibel level and relates it to a real world noise.
 Constitution	The Constitution with the text notes about each article and amendment.
 Brain Pop	Use Brain Pop on a tablet or smart phone. Some free videos are available for all.
 Earthquake	Earthquake shows the time and location of recent 2.0+ Richter Scale earthquakes.
 Seismometer	Well, if you have Earthquake...
 Elevate	A number of activities designed to improve memory, precision, spelling and more.
 Power One Calculator	One of many calculators available.
 Solve Outbreak	From the CDC, users learn to track virus outbreaks. Two levels of difficulty, level 1 must be done first. This will appear on the IMSA Fusion blog.
 Oceans	A book about oceans, biomes, biodiversity and some truly beautiful pictures.

 Shark Net	Videos and tracking of a number of “tagged” sharks. Information about “tagged” sharks is provided.
 Video Science	Numerous videos of science demonstrations and explanations of concepts presented.
 Night Sky	Provides views of the sky, at night and otherwise. Also provides the latest news related to space.
 Planets	Show planet location in the sky. Neat “Globe” feature, shows where night and day meet.
 Star Chart	Gives news about planetary conjunctions, events happening related to space, info on planets and stars.
 Moon	The phase of the moon is shown for any date into the 2100’s.
 Sky View	I like the space apps. Another that identifies objects in the sky. Info provided about constellations, too.
 UberDoodle	UberDoodle brings back the Spirograph. It is just fun.
 Clinometer	For when you want to determine the height of a building and see why you had to learn “SOHCAHTOA.”
 Today in History	Name says it all, relates events that occurred on today’s date.
 Guess the Emoji	A neat little app that lets you “guess the emoji.”
 Live Binders	This one is new to me, but I have built folders of urls focusing on Chicago’s sports teams.
 iBrainstorm	Use graphic organizers to build a “project.” Drop in sticky notes when needed. Project can be emailed.
